## Pivot

The Pivot office chair by Antonio Citterio is roughly 30 cm taller than a standard office chair. It thus facilitates healthy and spontaneous alternation between standing and sitting postures: instead of the desk being raised or lowered, users work at a standing-height table and can either sit on Pivot or stand up, as they prefer.

The rounded, forward-curving backrest of Pivot ensures great freedom of movement: the chair can also be used in a sideways position or as a stable support upon which to lean. Thanks to the SingleKnit cover fabric, Pivot does not have any irritating seams. In combination with the pleasant padding, this makes the chair very comfortable. The square-patterned texture provides a secure non-slip surface. A height-adjustable foot ring allows both taller and shorter users to find a comfortable sitting position, while reverse-braked castors prevent the chair from rolling away when pressure is applied.

In addition to the Pivot High Stool, the tall model for working at stand-up desks, Pivot is available as a tall visitor chair in the version Pivot Counter Stool with a

four-star base on glides, and also as a standard-height swivel chair in the studio version Pivot Stool.

### Materials

- **Seat and back shell:** one-piece seat and back shell made of polypropylene and encased in polyurethane foam, covered with SingleKnit fabric.

### Pivot Counter Stool

- **Pivot Counter Stool:** High visitors chair complying with EN 16139. Polished die-cast aluminium four-star base with glides. Seat height adjustable. In addition, fitted with height-adjustable polyamide base ring with anti-skid footrest. Adjustment ring for height adjustment of the base ring is always in the colour soft green.

### Pivot High Stool

- **Pivot High Stool:** High stool complying with DIN 68877. Five-star base either in basic dark polyamide or polished die-cast aluminium with reverse braking castors. Seat height adjustable. In addition, fitted with height-adjustable polyamide base ring with anti-skid footrest. Adjustment ring for height adjustment of the base ring is always in the colour soft green.

### Pivot Stool

- **Pivot Stool:** Stool complying with DIN 68877. Without base ring in normal swivel chair height. Seat height adjustable. Five-star base of polyamide in basic dark or polished die-cast aluminium with double castors (Ø 60 mm) or glides.
